Risotto

What is Risotto? Risotto is both the name of a dish – and also a way of cooking rice.

Risotto is a class of Italian rice dishes cooked in broth to a creamy consistency. The broth may be meat-, fish-, or vegetable-based. Many types of risotto contain butter, wine and onion. It is one of the most common ways of cooking rice in Italy.

A high-starch round medium- or short-grain white rice is usually used to make risotto. Such rice have the ability to absorb liquids and to release starch and so they are stickier than the long grain varieties.

Look in the shops for rice labeled **Risotto** or **Arborio**.

I'm pretty sure most of you have heard that making **Risotto** is a lengthy, fiddly process. Yes, it normally is. **But** in true **Alma-style**, I have searched the Internet and found an easy, no-fiddly way of cooking **Risotto** – by cooking it in the oven!!

My absolute favourite way of cooking **Risotto** is with brown button mushrooms and a packet of exotic mushrooms, together with a chicken broth. It never, never fails to deliver in taste, flavour and satisfaction.

But the beauty of this issue and these dishes, are you can make it with left-over meat and with any vegetables – an easy one-pot dish!
